

POWERcaddy

A safer more powerful cleaning solution.

Our EPA recognized device has patented **Pure Aqueous Ozone technology** that provides a cleaning and sanitizing solution proven to be equally as effective as traditional cleaners, but it is all-natural and safe!

NEW & IMPROVED!

Our Aqueous Ozone Devices are Recognized By the EPA

Simple, Safer, and Effective.

CleanCore has the only true on-site, on-demand nothing added Aqueous Ozone product line. Our aqueous ozone is made completely inside our device. No other products, additives, or filters needed. Avoid harsh chemicals, leftover residue, and dangerous chemical mixes... Our solution is equally as effective as traditional commercial cleaners but is just water and oxygen.

HOW DOES **pure** WORK?

AQUEOUS OZONE

Our technology takes cold tap water and infuses it with ozone gas to create our **Aqueous Ozone Solution**. CleanCore Solution's™ patented technology creates a cleaning solution that contains a high concentration of dissolved ozone in the form of **Nanobubbles**.

- When sprayed onto a surface the CleanCore Solution's™ **Nanobubble** solution is attracted to soils, germs and other contaminants.
- Once attached to the contaminants the ozone solution eliminates them; converting back to air and water
- **Nanobubbles** increase the cleaning effectiveness by thoroughly covering a surface, as shown above.
