AQUEOUS OZONE

Our patented Pure Aqueous Ozone technology takes cold tap water and infuses it with ozone gas to create our Aqueous Ozone Solution. CleanCore Solution's™ patented technology creates a cleaning solution that contains a high concentration of dissolved ozone in the form of Nanobubbles.

- CleanCore Solutions' Pure Aqueous Ozone Laundry Technology utilizes both hot and cold water to effectively clean your laundry.
- Reduce your chemical spend by utilizing Pure Aqueous Ozone to wash your linens, that is scientifically proven to be a better oxidizer than bleach.
- Reduce your dry time by up to 60% by effectively removing all the chemical residue out of the fibers in your linen.
- By not using as much chemical and by drying the linens for less time, the life of the linen will be greatly extended.
- Provides a solution that is completely neutral pH, reducing skin reactions.
