

SUSTAINABILITY MEETS PERFORMANCE

CCT 1.0 Fill Station

A safer more powerful cleaning solution.

Our patented **Pure Aqueous Ozone technology** provides a worry free, safer, cleaning and sanitizing solution to quickly clean and deodorize any surface.

pure 
AQUEOUS OZONE

CleanCore's™ Aqueous Ozone works to keep facilities cleaner and is safer than bleach and traditional cleaning chemicals.

Simple, Safer, and Effective.

Aqueous Ozone converts back to air and water, reducing your carbon footprint. No storage, mixing, transporting, making it safe and simple to use.

TECHNICAL SPECIFICATIONS

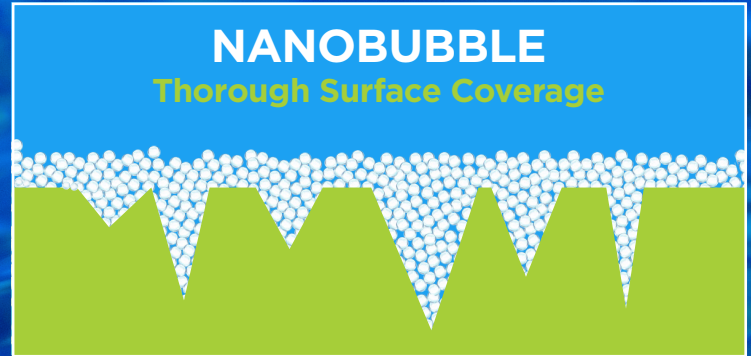

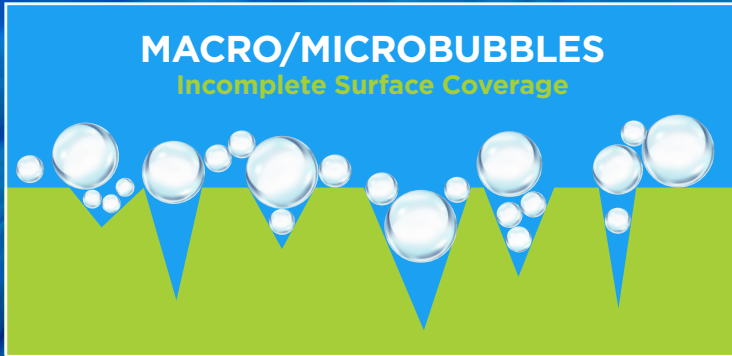

Voltage	120 VAC
Amps	0.5A
Weight	11 lbs
Dimensions	14" x 14" x 5.5"
Flowrate	0.5 Gallons Per Minute (GPM)
Concentration	Quality Control checked to 1.0-1.5 Parts Per Million (PPM) ozone in solution
Inlet Pressure	40-80 PSI
Water Source	Clean, cold, water

HOW DOES **pure** WORK?

AQUEOUS OZONE

Our technology takes cold tap water and infuses it with ozone gas to create our **Aqueous Ozone Solution**. CleanCore's™ patented technology creates a cleaning solution that contains a high concentration of dissolved ozone in the form of **Nanobubbles**.

- When sprayed onto a surface the CleanCore™ **Nanobubble** solution is attracted to soils, germs and other contaminants.
- Once attached to the contaminants the ozone solution eliminates them; converting back to air and water
- **Nanobubbles** increase the cleaning effectiveness by thoroughly covering a surface, as shown above.

pure

AQUEOUS OZONE

- No storage, mixing, transporting
- Cleaning and sanitizing with one application
- Converts back to air and water, reducing your carbon footprint
- A safer, healthier path to clean!
