- 💧 Save Energy, Labor and Money!

TECHNICAL SPECIFICATIONS

Dimensions: 8" X 8" X 4" PVC Enclosure

Power Options include:

- 120 V Power (3 AMP)
- Utilizes Air Dryers that are serviceable.

Flow Rate: 3 Gallons per Minute on each line

Indicator light to signal water is running/filling the machine.

Weight: 8 lbs.

HOW DOES pure WORK?

AQUEOUS OZONE

Our technology takes hot or cold tap water and infuses it with ozone gas to create our **Aqueous Ozone Solution**. CleanCore Solution's™ patented technology creates a cleaning solution that contains an effective concentration of dissolved ozone.

- CleanCore Solutions' Pure Aqueous Ozone Laundry Technology utilizes both hot and cold water to effectively clean your laundry.
- Reduce your chemical spend by utilizing Pure Aqueous Ozone to wash your linens, that is scientifically proven to be a better oxidizer than bleach.
- Reduce your dry time by up to 60% by effectively removing all the chemical residue out of the fibers in your linen.
- By not using as much chemical and by drying the linens for less time, the life of the linen will be greatly extended.
- Provides a solution that is completely neutral pH, reducing skin reactions.
