

CCS1000 Ice System

DISTRIBUTOR
LOGO

Delivering ozonated water that maintains a clean, bacteria free ice machine, as well as producing pure, clear, quality ice.

Our patented *Pure Aqueous Ozone technology* produces ice that is bottled water quality.

- Helps establish a proactive ice machine safety program
- Prevents slime build up (biofilm) in the cool environment of your ice machine
- Prevents bacteria & mold growth such as: Listeria, Legionella, E Coli, Staphylococci
- Keeps patrons safe from harmful bacteria responsible for many respiratory and gastrointestinal illnesses
- Helps prevent low water flow to the ice machine by keeping the water solenoid open and clear of mold and residue build up

Item #1570 0010

SUBSCRIPTION VS PURCHASE?

The ice unit is easy to install and maintain, with two different pricing options. Customers that purchase get a 2-year warranty, or put the unit on a monthly subscription for a lifetime warranty!

SUBSCRIPTION

- NO UP-FRONT INVESTMENT
- Lifetime Warranty
- If a unit goes bad, we send a replacement unit, *not replacement parts*
- Does not require capital money

PURCHASE

- 2 Year Warranty
- Capital Expense
